Titles

A

Analysis of Diers Venting Tests: Validation of a Tool for Sizing Emergency Relief Systems for Runaway Chemical Reactions ... 1

B

Behavior of Denser Than Air Ammonia in the Presence of Obstacles—Wind Tunnel Experiments, The 93
Boiler and Machinery Protection: Through Control of Piping Reactions 183

C

Corrosion of a CO2 Absorber Tower 65
Cogeneration in a Nitrogen Fertilizer Complex 73
Contribution of Low-Level Flammable Concentrations to Dust Explosion Output 57

D

Damage at Syngas Turbine by Excessive Steam Superheating . 90
Design and Sizing of Knock-Out Drums/Catchtanks for Reactor Emergency Relief Systems 129
Design and Use of Containers for Cryogenic Liquids 17
Determining Heater Retrofits Through Risk Assessment 228
Development of an Inclined Plate Jet Reactor System 40

E

Early On-Line Detection of Exothermic Reactions 221
Emergency Relief Vent Sizing for Fire Emergencies Involving Liquid-Filled Atmospheric Storage Vessels 205
Equations for the VDI and Bartknecht Nomograms 49
Evaporation Enhancement Through the Use of Sprays 23
Explosion in Cold Storage Kills Fire Fighter 27
Explosion of a Benfield Solution Storage Tank 45

F

Failure of High Pressure Synthesis Pipe 155
Firebox Explosion in a Primary Reformer Furnace 122
Fire Protection for Cable Trays in Petrochemical Facilities 35
For Energy Savings—Look at Your Boiler Blowdown 110

H

Heat Transfer Oil Boilers 193
High-Tech Mist Elimination in Multi-Stage Evaporators 52
High Temperature Polymeric Fire Barriers 148

I

Inerting for Safety 225
Investigation of Damage and Repair Of a 1000 MTD Horizontal Ammonia Converter 116

L

Lessons in Hazardous Material Transportation Based on Case Histories 186
Loss Prevention Through Machinery Vibration Surveillance and Analysis 179

M

Major Fire in a Steam-Methane Reformer Furnace 165
Metallurgical Examination of Existing Piping in an Ammonia Plant 81
Mitigation of Vapor Cloud Hazards 169
Modification Chains 136
Multiple Cracking and Leakage of a Hot Synthesis Gas Pipe 175

N

Nox in the Cryogenic Hydrogen Recovery Section of an Olefins Production Unit 232

O

Operator Training for Startup 78

P

Practical and Economic Benefits of Falling Film Evaporation 31
Pressure Venting of Dust Explosions In Large Vessels 196
Problems with Leakages at Large Flanges in the BASF New Ammonia Plant 86
Property Insurance Considerations In Loss Prevention Expenditures 209

R

Reliability and Hazards Analysis of a Cumene Hydroperoxide Plant .. 97

S

Safety Evaluation of Chemicals: The Regulatory Framework 11
Sequential Completion of Plant Construction to Allow Early Production 108
Severe Carry-over Phenomena in 1,200 MTPD Methanol Plant .. 103

T

Thermal Runaways: Problems with Agitation 142
Thermal Stability of Ethylene at Elevated Pressures 238
Transportation of Hazardous Substances: The UK Scene 160
